## 1. Purpose

To minimise the risk of injury to persons working in, or accessing, an area underneath overhead works, whilst such works are in progress.

## 2. Scope

This procedure applies to all CS Energy personnel, Contractors and any other personnel whilst they are present on CS Energy sites.

## 3. Actions

### The Authorised person to:-

1. be satisfied that the area barricaded is sufficient to ensure that any debris, equipment, parts, etc that may accidentally fall, will do so within the barricaded area .This is to minimise risk to personnel below.
2. undertake when necessary a formal risk assessment prior to establishing a barricade. In such cases the authorised person should contact the relevant Plant Engineer or a qualified Workplace Health and Safety Officer for assistance.
3. install all barricade tape prior to commencing the overhead works and remove the barricade tape immediately the works have been completed.
4. to attach a completed Form 958 to the barricade tape.

**All personnel on site to:**

obey the instructions printed on the barricade tape, unless authority to enter is granted by the person performing the works overhead, as identified on the displayed Form 958.

**4. Definitions**

**Works:** Can include erection or dismantling of scaffold, welding, cutting, plant maintenance, lifting etc.

**Authorised Person:** Officer in Charge of performing the works.

**Barricade:** Tape with written warning:  
“DANGER - Do Not Enter”.
