

CS Energy is a Queensland Government owned energy provider with a unique mix of technology and an innovative approach that is powered by experienced, skilled and talented people. We strive to deliver a sustainable and commercially viable future for our organisation, our employees and the people of Queensland.

Our generating portfolio includes the 1,720 megawatt (MW) coal-fired Callide Power Station near Biloela in Central Queensland, the 750 MW Kogan Creek Power Station near Chinchilla in South West Queensland, and the 500 MW pumped storage hydro electric Wivenhoe Power Station near Esk in South East Queensland.

Wivenhoe Power Station

- Location:** Wivenhoe Pocket via Fernvale, in South East Queensland
- Capacity:** 500 MW for 10 hours
- Fuel:** Pumped storage hydroelectric
- Employees:** 13 employees

Wivenhoe boasts the largest hydromachines in Australasia at 1,450 tonnes each and 350,000 litres per second water discharge. The station can go from 0 MW idling to generating 500 MW in less than 14 seconds.
