### **Callide Power Station Community Grants Program to support Biloela community groups**

In an exciting new initiative, CS Energy is launching the Callide Power Station Community Grants Program which will provide the Biloela community and school groups with the opportunity to apply for grants up to \$3,000.

Callide Power Station Site Manager, Kevin Harney, said the Callide Community Grants Program aimed to provide support for local groups to improve community facilities and services, school amenities and programs, and the natural environment.

"We are calling for applications for funding of up to \$3,000 for projects that provide tangible and long-lasting community benefits.

"The Community Grants Program is a way for the Callide Power Station to give back to our local community," Mr Harney said.

"It will help ensure that the Biloela region continues to be a great place to live and work and demonstrate CS Energy's commitment to improving the community and environment in which we operate.

The Community Grants Program will support local schools and community groups based, or servicing residents, in the Biloela region and Banana Regional Council area.

Application forms are available online at [www.csenergy.com.au](http://www.csenergy.com.au), under the community section, by emailing [CCPS@csenergy.com.au](mailto:CCPS@csenergy.com.au), or by phoning 4992 9202.

Applications close on 22 October 2010. Proposals for funding will be assessed by the Callide Power Station's Community Partnerships Committee and successful projects will be announced in November.
