

MEDIA RELEASE

16 July 2004

A new generation for CS Energy

CS Energy Ltd's Chairman, Stephen Lonie today announced the appointment of Mr Mark Chatfield as Chief Executive.

Mr Lonie said the appointment comes at a crucial time in the growth of the company.

"Mark will join CS Energy at a time when the company's strategy of building a flexible and diverse portfolio is very evident. Our latest development, Kogan Creek Power Project, will make CS Energy the largest power station operator in Queensland, capable of responding to any market development.

"Mark comes to us from Western Power, where he held the position of General Manager, Generation, responsible for power station operations and maintenance, fuel purchases and asset renewal. This operational background will help to reinforce our connection between strategic decisions and day-to-day operations," Mr Lonie said.

Mark had also held a number of positions with Ampolex, primarily in gas marketing, and was seconded to the working group assisting the Energy Board of Review (the Carnegie Inquiry) evaluating and recommending Western Australia's preferred industry structure.

"We are delighted to welcome Mark to our team," Mr Lonie said.
