

# Banned Items Register

This Register specifies plant, equipment and miscellaneous items identified as posing an unacceptable hazard. The intent of this Register is to ensure awareness of items that are not to be brought on to or used on CS Energy Sites under any circumstances.

Reference image	Banned Item	Justification	Approval	Reference image	Banned Item	Justification	Approval
	Rotary power tools without a Deadman type switch	Known cause of serious injury.	No approval		Elasticised strapping eg. Octopus "Ockey" Straps, plastic and/or rubber strapping	Known cause of serious and permanent Injury.	No approval
	Fixed retractable blade utility knives	Known cause of serious Injury.	No approval		Welders without voltage reduction devices	Electrical shock hazard	Welders utilised must be fitted with voltage reduction devices, otherwise no approval
	Laser Pointers Class 3R or > 1mW	Risk of injury. Class 3R Laser pointers classed as 'Controlled Weapon' under the Weapons Acts and Regulations	No approval		Oxy / Acetylene systems not fitted with Flash back Arrestors	Legislative requirement, and a potential explosive hazard	Only Oxy / Acetylene systems fitted with flash back arrestors to both the hand piece and cylinder can be used, otherwise no approval

# Restricted Items Register

This Register specifies items that have been identified as posing an increased risk. The intent of this Register is to ensure awareness of items that are not to be brought on to or routinely used on CS Energy Sites. Where the use of a Restricted Item is considered necessary (i.e. there is no safe alternative identified), a formal risk assessment must be undertaken and signed off by the Manager of the work area/site.

Reference image	Banned Item	Justification	Approval	Reference image	Banned Item	Justification	Approval
	Explosive Power Tools (e.g. Ramset guns)	Known cause of serious injury. A significant number of high potential incidents experienced on sites and broader industry.	Seek an alternative tool.  Manager to sign off risk assessment		Axe	Known cause of serious injury.	Seek an alternative tool.  Manager to sign off risk assessment
	9" Angle Grinder	Known cause of serious injury. A significant number of high potential incidents experienced on sites and broader industry.	Seek an alternative tool.  Manager to sign off risk assessment		Hard Faced Sledgehammers >4lb	A significant number of high potential incidents experienced on sites and broader industry due to when striking hardened steel with the hammer, shards of steel have the potential to break off and cause injury.	Seek an alternative tool.  Manager to sign off risk assessment
	Flogging/Slogging Spanners	Known cause of serious injury.	Seek an alternative tool.  Manager to sign off risk assessment
