Title: SERIOUS INJURY AND FATALITIES - SIF HAZARD - WORK AT HEIGHTS

Reviewed: 07/19 Amended: 07/19 Review Due: 07/21 Form: \$2286

CRITICAL CONTROL VERIFICATION								
			HAZARD – WORK AT	HEIGHTS				
DATE:		VERIFIER:		SITE:				
TIME:		TASK:		LOCATION:				
BARRICADING	, GUARDRAILS, EDGE	S AND GRATINGS				YES	NO	N/A
Are appropriate guardrails and edge protection in place to prevent fall over an edge or through any opening?								
PERMITS						YES	NO	N/A
Are all permits in place, filled out and signed for work at height, removal of covers, flooring, guardrails or grid mesh?								
TRAINED & COMPETENT WORKERS						YES	NO	N/A
Is scaffold being erected by suitably qualified worker (e.g. basic – quick stage / modular; intermediate – tube and fitting; advanced – suspended or hung scaffold)?								
Are all workers competent to perform their work (Work at Height, Crane Operation, Scaffolder, EWP >11m = High Risk Work Licence)?						•		
SCAFFOLDING						YES	NO	N/A
		old access points, are a	all fields completed, and are peop	le complying with requiremen	ts?			
Does the scaffol	d have the load capacit	y posted?				•		
						•••••••••••••••••••••••••••••••••••••••		•
Is the scaffold protected from moving vehicles/equipment? Does the scaffold have complete floors, toe boards, mid rails and handrails (Top rails securely installed between 900mm and 1100mm								,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,
height and withstand falls from any direction)? Are scaffold boards & walkways tied-down/secured?								
Are modular scaffolds marked to identify manufacturer or supplier, system type and date of manufacture?								
Is there a scaffo	old plan that has been a	pproved by an authoris	sed person?					
If a scaffold is in	complete is a 'Do Not U	se Scaffold' tag used	?			•		•
FALL ARREST	AND FALL RESTRAIN	Г				YES	NO	N/A
Is a suitable and	chor point being used (i.	e. registered and/or ap	pproved by Height Safety Supervi	sor)?				
Is there a safe means of access for secure connection /disconnection to the anchor point?								
Are team members wearing a suitably fitted harness with correct connections to fall restraint/fall arrest lines?								
Has each team member inspected the condition of their height safety equipment and checked the inspection tag?								
rias cacir team i	member inspected the co	ondition of their height	safety equipment and checked					
	member inspected the co
