		S - SIF HAZARD - VEHICLE INTERACTION			
DATE:	VERIFIER:	SITE:			
TIME:	TASK:	LOCATION:			
TRAFFIC MANAGEMENT				NO	N/A
Are the designated pedestrian walkways , speed signs and barricades fit for purpose and provide clear instruction for the area being reviewed?					
Vehicle movement is being managed to prevent human interaction and collision ? (e.g. segregation, spotters)					
Are drivers wearing seat belts, have park brakes applied, reverse parked, have flashing lights on?					
	limits adhered to according to signag				
FIR FOR PURPOSE VEHICLES				NO	N/A
Has a prestart inspection been completed on the vehicle and in good working order (e.g. buggie, crane, truck, dozer, etc.)?					
Are vehicle defects identified and fixed before being driven on and to and from site?					
Is mobile equipment fitted with flashing lights, reversing alarms and where appropriate is the vehicle fitted with serviceable fire extinguishers ?					
Are emergency supplies considered if working remotely or for extended travel e.g. water, food, first aid kit, GPS trackers, communication methods?					
TRAINED,	COMPETENT AND FIT OPERATOR	s	YES	NO	N/A
Does the driver have the correct licence to operate the vehicle?					
Does the d	iver have the correct licence to open	rate the vehicle?			
	iver have the correct licence to oper ver undertaken VOC as required by the				
Has the dri	ver undertaken VOC as required by the				
Has the drive	ver undertaken VOC as required by the	ne vehicle machinery type? ney fit for work (e.g. no obvious signs or symptoms)	YES	NO	N/A
Has the drive	ver undertaken VOC as required by the within fatigue guidelines and are the one and maintenance of EQUIPI tor/external equipment, plant and ma	ne vehicle machinery type? ney fit for work (e.g. no obvious signs or symptoms)	YES	NO	N/A
Has the drive INSPECTION Are contract completed?	ver undertaken VOC as required by the within fatigue guidelines and are the one and maintenance of EQUIPI tor/external equipment, plant and ma	ne vehicle machinery type? ney fit for work (e.g. no obvious signs or symptoms) MENT	YES	NO	N/A
INSPECTION Are contract completed? Are loads of the second completed?	ver undertaken VOC as required by the within fatigue guidelines and are the NON AND MAINTENANCE OF EQUIPATION tor/external equipment, plant and massecured, tied down?	ne vehicle machinery type? ney fit for work (e.g. no obvious signs or symptoms) MENT	YES	NO	N/A
INSPECTION Are contract completed? Are loads so if vehicle at assigned to	ver undertaken VOC as required by the within fatigue guidelines and are the NON AND MAINTENANCE OF EQUIPATOR/external equipment, plant and material decured, tied down? Indicated the decured of the truck?	ne vehicle machinery type? ney fit for work (e.g. no obvious signs or symptoms) MENT chinery in good condition, pre-starts completed, logbooks	YES	NO	N/A
